## HIGHEST TENSION PREVAILS IN COUNTY FERMANGH Texans in House Representatives Create Lively Proceedings

### BLANTON WOULD EJECT GARNER FROM POSITION

Says That Colleague Is a Disgrace to August Body and Should be Kicked Out.

### FIRE-EATER COMES TO RESCUE

Lie Is Passed Amid Stirring Scenes—and Sergeant-at-Arms Is Kept Busy.

WASHINGTON, April 6.—Representative Garner, of Texas, declared in the house today that if permitted by the rules to speak what was in the minds of 434 of 435 house members he would say that Representative Blanton, of that state, "is a disgrace to this house, and ought to be kicked out." Garner's statement, coming after Blanton defended himself against a newspaper article, threw the house into great disorder and brought from the speaker a sharp and quick command to the sergeant-at-arms to prevent a personal clash after Blanton shouted he would hold Garner responsible if he called a liar by him.

At the outset of a brief speech Garner said that in this world there "are all kinds of liars, the artistic liar, the inartistic liar and the common liar." Blanton, sitting a few feet away, jumped to his feet, and exclaimed: "And I will hold you personally responsible if you call me a liar." Garner did not notice the interruption, but Representative Sumners, also of Texas, sitting nearby, jumped to his feet, and shouted "liar" at Blanton, at the same time starting in his direction. At this point the sergeant-at-arms rushed in and Blanton retired. Then there came from the democratic side of the chamber the cry of "throw him out," which was picked up by other democrats, and for a moment there was great confusion. Garner resumed his speech, after quiet was restored.

### No Fry Distribution To Occur This Year

There will be no distribution of fry by the state fish hatchery this year, according to a letter received today by County Clerk L. E. Glass, from James H. Vogt, superintendent of hatcheries. The reason given for this action is that the hatcheries are undergoing extensive improvements and will not be completed until this fall.

### PROFESSOR BENNETT TAKES SEAT IN REAR

Prof. Ellsworth Bennett of the Tonopah school of mines thinks he is the luckiest man in Tonopah. It was occasioned through the arrival of a cute little baby girl, having a weight of seven pounds, who took possession of the family domicile last night. Her advent was anticipated and elaborate preparations had been made for her reception, and it is needless to state that the sister and brother were highly pleased, not to mention the smiles that appeared upon the countenances of the parents. The family is now complete, numbering three, but Prof. Ellsworth will be compelled to take a back seat in the future, as the new member of the family gives promise of assuming dictatorship over the household.

### OWNERSHIP OF DOGS CLASSED AS LUXURY

(By Associated Press)  
BERLIN, April 6.—Ownership of two or more dogs is classed as "luxury" here, and extra heavy taxes are imposed under a new schedule. It is estimated that the owners of 140,000 dogs in Berlin must pay the government 50,000,000 marks for licenses.

### WYOMING VISITED BY HEAVY STORM

(By Associated Press)  
CASPER, April 6.—The heaviest snow storm of the winter is in progress in central Wyoming. The equivalent of an inch and a half of water fell in rain and snow yesterday. The snow lays to a depth of one foot today with a heavy fall continuing.

### RAILROAD RATE IS LIKELY TO GET REAL CUT

Official Says That He Believes a Reduction Will Occur in Near Future.

(By Associated Press)  
FREEDPORT, Ill., April 6.—Belief that railroad rates are going to be reduced was expressed here today by C. H. Markham, president of the Illinois Central Railroad company, in an address today before the Rotary and Kiwanis clubs here.

### JAP IMPORT DUTY ON COPPER IS ANNOUNCED

(By Associated Press)  
WASHINGTON, April 6.—A sharp advance in Japanese import duties on copper and copper products, effective March 30, was announced today in a department of commerce dispatch from Tokyo.

### TRINITY CHORUS SINGING HEARD BY RADIO BUGS

People Now Remain at Home and Hear Singing From Bay City Church.

(By Associated Press)  
SAN FRANCISCO, April 6.—Chimes pealing through the air at 11 o'clock each Sunday morning give notice to radio fans along the Pacific coast that church services are beginning. After the chimes have called the auditors, a voice announces that inter-denominational church services are to be broadcast by the Rockridge station in Oakland.

Hymns, anthems, a prayer and a sermon are heard during the 75 minutes the Trinity Center, sponsor for the services, holds the air. The services are identical with the regular protestant church services with the exception that the collection plate is not passed.

The church services have been heard more than 2000 miles out in the Pacific ocean and in all Pacific coast states, according to reports received by the broadcasting station. Invalids who are unable to get to church have listened in on the services and one woman, bedridden for three years, has written that the services are greatly appreciated. They are the only church services she has been able to hear for the last three years.

The sermon each Sunday is furnished by a leading divine of the San Francisco Bay region and is read by the operator of the broadcasting station.

### WOULD THROW OPEN U. S. IMMIGRATION

(By Associated Press)  
WASHINGTON, April 6.—An "immigration holiday" of from one to five years was recommended to the house immigration committee by Mrs. Lillian Russell Moore, who recently inspected conditions in France, England and Italy under commission by President Harding.

As a result of her trip, she said, her conviction was that "America should care for Americans first," and it assumed first importance in her mind among all other phases of immigration problems.

### GOVERNOR SMALL HAS WITHDRAWN PROTEST

(By Associated Press)  
WAUKESHA, Wis., April 6.—Governor Small today withdrew his challenge to the jury panel called to sit at this trial and then accepted the proposal by Judge Edwards that a committee of three select a new jury list.

### Ghost Stalks Proudly With County Workers

The ghost stalked around the court house today as a result of the county commissioners having audited and allowed the pay roll for the month of March. Tomorrow the commissioners will sit as a town board when bills will be allowed for the past month.

### OPERATORS OF KANSAS READY TO MEET MINERS

Ask Representatives to Confer With Association Members At Kansas City Monday.

### NO EFFECT STRIKE YET FELT

Reserve Stocks of Coal Sufficient to Last for Period of Entire Summer.

(By Associated Press)  
PITTSBURGH, Kas., April 6.—The Southwest Interstate Coal Operators Association has invited the Kansas union miners to meet representatives of the association in conference at Kansas City next Monday to consider negotiations for a new contract.

(By Associated Press)  
WASHINGTON, April 6.—The coal strike as yet has been without any effect on business, according to the view expressed at the treasury. Officials explained it was too soon for the reserve stock of coals to become depleted sufficiently to effect the country industrially. These officials opined there will be no danger of a coal shortage during the summer, even though the controversy between the miners and operators should be protracted several months.

(By Associated Press)  
PITTSBURGH, April 6.—The Pittsburgh Coal Producers Association declined the invitation of Chairman Nolan of the house labor committee, to meet with the operators of Ohio, Indiana and Illinois, and officers of the United Mine Workers of America, for a conference in Washington on the strike on April 10.

(By Associated Press)  
WASHINGTON, April 6.—The coal strike as affected by the bituminous fields of central Pennsylvania is blamed on miners by T. S. Watkins, spokesman for the operators' association there, who declared the break was due to the positive refusal of the miners' union to negotiate with employers.

MRS. FRANK PETERSON, who has been on the coast recuperating her health, has returned to Tonopah. Mrs. Peterson has fully recovered her health which will be pleasing news to her many friends.

### RANDBURG IS EXPERIENCING GENUINE BOOM

Local Mining Men Return From Trip of Inspection and Are Highly Enthusiased.

### BEN HUR DIVIDE ENTERS FIELD

Population of District Has Increased to Five Thousand During Recent Months.

A mining boom equalling that of the Divide excitement of three years ago is being experienced at Randburg, according to R. J. Kelly, Albert Kelly and Roger "Onie" Dougherty, who returned yesterday afternoon from a visit to that camp.

"It is the biggest thing I have witnessed in a mining way during the last three years," remarked R. J. Kelly this morning. "You would be surprised at conditions as they exist. It is next to impossible to secure sleeping accommodations at Randburg, and we had to go over to Johannesburg, two miles distant, to secure rooms. Even that camp, which is headquarters for the Kelly mine employees, is crowded, and Main street in Tonopah during the Divide excitement resembled present conditions at Randburg."

"There are fully 150 gallews frames dotting the districts, which embrace Randburg, Johannesburg and Inn City," remarked Albert Kelly, "and 16 new headframes are in the course of construction. Over at Johannesburg, Uriah Curtis, the man who sunk the Fraction shaft on the Jim Butler property at Tonopah, has started construction work on a large hotel, and the building will be rushed to completion. The whole district is teeming with activity and sensational mineral finds are being reported with great frequency."

"Take it from me," remarked "Onie" Dougherty, "Randburg is the best mining district I have inspected in years, and the only regret I have is that it is not located in Nevada. However, Tonopah people are well represented in the Ben Hur Divide Mining company, which recently acquired a splendid group of claims in the very heart of the Randburg district."

"Messrs. R. J. Kelly, Albert Kelly and 'Onie' Dougherty, three of the best known mining men in Tonopah, were privileged to inspect a number of properties that are producing heavily of high grade ore, and they return greatly enthused. Thos. Fitzgerald, formerly connected with the Tonopah Belmont Development company, is in charge of the Bibbee mine, and John M. Fox, formerly associated with the Tonopah Mining company, is manager of the Coyote mine. Ore has been developed on the 400, 500 and 600 levels. No. 2 shaft on the Coyote mine which was lowered 240 feet in 32 days, three shifts of miners being employed. This shaft is exploring the vein system known as the Kelly Fraction."

The Black Hawk property south of the California-Rand holdings is operating a 5-stamp mill with satisfactory results, and diamond drills are being used with success.

Work on the Ben Hur property, which lies near the Silver Moon and famous Kelly-Rand properties will be receiving attention in a few days, and installation of equipment is to be rushed. The Ben Hur holdings make as fine a surface showing as does the famous Kelly mine, and samples of ore can be picked from a 70-foot shaft that runs as high as \$1000 a ton. The Kelly-Rand adjoins the Ben Hur on the north, while the K. N. C. property lies 1000 feet to the southwest of the Ben Hur, and ore is being mined from the K. N. C. that returns average values of \$150 a ton.

R. J. Kelly estimates that the present population of the Randburg district is about 5000, with more arriving daily.

### MACNAMARA MILL IS RUNNING CAPACITY

The MacNamara mill is operating on full time and at maximum capacity. Quite a heavy tonnage of ore is being received from various properties, while the West End Consolidate Mining company is furnishing 400 to 500 tons of ore weekly. The plant is reported as making an unusually high saving of values under the supervision of Fred Ninnis, who also is in charge of the West End mill.

It is expected that a number of outside properties will start shipments in the near future, with Royston taking the lead in tonnage.

### ALIEN LAND CASE TO BE ADVANCED

(By Associated Press)  
WASHINGTON, April 6.—The supreme court on Monday will be asked to advance for consideration at this term the case which W. L. Porterfield and Y. Mizuno, who seek to bring to a test the constitutionality of the California anti-alien land law.

### Farmer Recognized.

(By Associated Press)  
WASHINGTON, April 6.—Favorable report on the senate bill, providing for the appointment of a farmer as a member of the federal board, was ordered by the house banking committee.

### MIDWAY SCENE OF IMPORTANT MINERAL FIND

Orebody Has Width of From Eight to Fifteen Feet Carrying Good Values.

### DISCOVERY ON 1200 LEVEL

Eight Feet of Solid Quartz Showing That Carries Exceptional Values.

One of the most sensational mineral finds that has been made in the Tonopah district in a long period was reported this morning from the Tonopah Midway property. The find was made 150 feet north of the new shaft on the 1200 level and the vein has a width of from 8 to 15 feet, with eight feet of highly mineralized quartz being in evidence. Assay returns on a piece of the ore this morning showed values of \$480.90 a ton. This would not be the average of the ore, however.

The drift on the 1200 level was extended several years ago when a fault was encountered, and it was while endeavoring to pass the fault that the ore was passed accidentally. Exploration that was started a few days ago resulted in the ore vein being discovered.

As a result of the discovery Tonopah Midway shares advanced from 5 cents to 14 cents this morning on the mining exchange, with heavy sales being recorded.

George H. Garry, well known geologist, has been studying the geological conditions of the property of late, and it was largely through his recommendations that the 1200 drift was explored with such satisfying results.

Foreman Frederickson announced this morning that as soon as the workings had been repaired and shaped up that heavy shipments can be started.

### DEFENSE RESTS IN ARBUCKLE CASE

(By Associated Press)  
SAN FRANCISCO, April 6.—The defense in the Arbuckle manslaughter trial announced this noon it rested its case. The last witness was Arbuckle himself, who testified yesterday.

### COAST BRICKLAYERS ENTER UPON STRIKE

(By Associated Press)  
SAN FRANCISCO, April 6.—Union bricklayers employed on jobs operating under the open shop or "American plan," went on strike today. It was announced by union officials. Between 100 and 200 workers are affected. The strike was called by international officers.

### PRESIDENT DESIROUS RECOGNIZING MEXICO

(By Associated Press)  
WASHINGTON, April 6.—President Harding today asked in a resolution introduced by Representative Connally of Texas, to "take appropriate steps to adjust diplomatic relations between the United States and the republic of Mexico."

### SCION WEALTHY FAMILY WANTED AS A BIGAMIST

Married Second Woman Seventeen Days After He Is Wed in Ohio City.

(By Associated Press)  
NEW YORK, April 6.—Joseph Donald Grafton, son of a wealthy furniture manufacturer, whose whereabouts are unknown to the police, was indicted today by a supreme court jury on charges of bigamy, and a bench warrant issued for his arrest. The indictment charged that Grafton married Mary Margaret Laird, known on the stage as Peggy Davis, in this city December 19, 17 days after he had gone through a marriage ceremony at Youngstown, O., with Ellen Curley McIntyre. Miss Davis is 17 years old, and is now in a sanitarium here. The mother, with the Youngstown girl, appeared yesterday before the grand jury.

### SIMON COMPANY TO ROAST ORES AT GOLDFIELD

Secures Furnaces of Consolidated Mill and Will Prepare Shipments to Coast.

The Simon Silver-Lead company is to repair the roasting furnaces at the Goldfield Consolidated mill for the purpose of roasting concentrate in transit from the Simon mine to Harbor City, near San Pedro, California, where the company has a smelter for converting the roasted product into zinc oxide for the paint and rubber trade. E. F. Hall, who has been in Goldfield with C. D. Kaeding, consulting engineer for the Simon company, will have charge of the reconstruction of the roaster.

The plant there will have a capacity greatly in excess of the present rate of zinc-concentrate production of the Simon, but it is planned to increase the output gradually to the capacity of the roaster. The repair work is to be started immediately and when this has been completed three shifts will be used in running the roasting plant.

Mr. Kaeding stated that a number of men will be employed and that the plant would remain in Goldfield permanently, as there would be no advantage in moving it, considering what would be the high cost of moving and re-erecting.

Buy Dodge Cars.

The Midland garage reports the sale of two Dodge cars, one to Nye county and the other to Charles Kalkola. The machines are beauties and have been the cause of much admiration.

### ULSTER LEADER SAYS PEACE TO BE ENFORCED

Sir James Craig Says He Has Assurance "Other Side" Will Adjust Matters.

### ARMY RECRUITS ARRESTED

Hundred Young Men on Way to Join Republican Army Taken From Train.

(By Associated Press)  
BELCOO, County Fermanagh, April 6.—An extraordinary state of affairs prevails in this district. The Irish republican forces are actually within a hundred yards of this little town, which is inside of Ulster territory. Southerners can plainly be seen moving about and when a correspondent arrived here today, rival forces were glaring at each other. Ulster specials and Irish republican army troops are on duty at either end of the bridge which penetrates Belcoo from Black Lion County Cavan. Occasionally, members of the two parties approach to within ten yards of each other, with rifles ready to fire, but they never speak. Irish republican army crews at their end of the bridge have two machine guns and the crews are keenly alert.

(By Associated Press)  
DUBLIN, April 6.—One hundred young men from Tralee, proceeding to Dublin to join the Free State army, were intercepted today at Malinbeg, County Cork, where they were to change trains, by a strong party of republicans. A clash occurred in which it is reported one of the Free State recruits was wounded. All the Free State men were then arrested and taken to the barracks at Dutton, County Cork.

(By Associated Press)  
BELFAST, April 6.—Sir James Craig, Ulster premier, announced today in the Ulster parliament, in the course of a statement on the criminal procedure bill, that he just had assurances that the "other side" intended to enforce peace themselves and that prospects seemed to be even better than yesterday.

(By Associated Press)  
BELFAST, April 6.—County Inspector Harrison reported today that an officer and six special constables patrolling the shores of Lake Lough Sillion, 10 miles north of Belcoo, were attacked by 75 persons, using a machine gun. One special constable is believed to have been killed.

H. T. FRENCH has been appointed superintendent of the Alkali station of the Nevada-California Power company, succeeding William Christensen, who proposes devoting his attention to mining.
